

TEESING

TEESING
HAS AN EXTENSIVE
PRODUCT RANGE
SPECIAL FOR THE
MEDICAL SECTOR
INDUSTRIE.

MEDICAL SECTOR

SAFE AND RELIABLE COMPONENTS ARE VITAL TO THE SUPPLY OF WATER, AIR, OXYGEN AND OTHER MEDICAL GASES OR CHEMICALS. TEESING SUPPLIES A LARGE RANGE OF PRODUCTS THAT MEET THESE HIGH DEMANDS.

Whether you need a component for sterilisation equipment, MRI or CT scanners, medical gas, laboratory cabinets or anti decubitus beds, Teesing can advice and supply exactly the right components to suit your application. For 60 years we have been working with hospitals, certified installers for hospitals, original equipment manufacturers (OEMs) and medical equipment suppliers.

CERTIFIED PRODUCT RANGE

Each application has a specific set of requirements, depending on pressure, medium, temperature and location in the hospital. We offer a completely independent range of products and brands that meets all safety requirements. We supply all types, sizes, materials and brands such as Serto, Rehau, Rectus, WEH and Rotarex, from standard components to OX components for oxygen transport, among other things. The products available span USP Class I to VI.

ENGINEERING

Teesing has its own engineering department that can develop custom parts or assemblies in cooperation with our customers. Some customers require parts that are not available in the standard product range; Teesing can design, develop and manufacture custom parts in small or large quantities on demand.

WHY TEESING?

- Complete, reliable, certified product range
- Product and brand independent
- Specialised technical support and advice
- Flexibility, high service and responsiveness

Let the Teesing sales engineers advise you to find the right solution for your specific application. Visit our website www.teesing.com for our complete range of products and services.

LET'S HEAR FROM OUR SPECIALISTS

TEESING HAS AN EXTENSIVE PRODUCT RANGE SPECIAL FOR THE MEDICAL SECTOR INDUSTRIE.

VARIASS MEDICAL SYSTEMS

DEVELOPS ELECTRONIC AND MECHATRONIC MEDICAL AND ANALYSIS SYSTEMS SUCH AS THE KIDNEY ASSIST.

→**Anne Flapper**, Product Developer

“KNOWS WHAT IT'S DOING. AND WE BENEFIT FROM THAT KNOWLEDGE.”

“All the couplings, pipes and sensors we use, we buy at Teesing. Our quality standards are high. Stainless steel parts must have good chemical resistance and the longest possible life cycle and they must be bio-compatible and equipped with labels and the related certificates. Teesing offers us this quality. And above all, they understand our questions, brainstorm with us and come up with the best solution. Teesing knows our business and can seize opportunities better than anyone else.”

PMT PARTNERS MEDISCHE TECHNIEK BV

PRODUCES STERILISERS IN-HOUSE UNDER THE CE CERTIFICATE FOR MEDICAL DEVICES

→**John Schouwenburg**, Head of Production

“TEESING'S CUSTOMISED ADVICE BROUGHT DOWN OUR TOTAL COST OF OWNERSHIP.”

“PMT manufactures and supplies equipment of a constant quality with the longest possible life cycle, low maintenance and virtually no downtime. In our sterilisation devices we use Serto couplings because of the radial mounting and dismounting. In limited spaces the couplings save space and time, but they are also easy to install. Looking at the application, Teesing advised a cheaper material, but qualitatively an equivalent alternative. This reduced our total cost of ownership.”
